CORE RECRUITMENT CALL: ENGINEERS, DEVELOPERS, DESIGNERS

INK-TEK INC. / InkSurrection LLC

Core Systems Recruitment Notice - May 2025

POSITIONS OPEN:

- AGI Software Developers
- Hardware Systems Engineers
- Systems Architects
- UI/UX Designers
- Creative Systems Engineers

We are building next-generation AGI infrastructure, reality-verifying neural systems, and scalable cognitive frameworks.

This is not another startup - this is defense architecture for the human mind.

INITIAL TERMS - EQUITY STAKE ONLY:

These roles are initially ****non-salaried**** and are compensated via ****foundational equity stake**** in INK-TEK INC.

Participation means you become a ****real stakeholder**** in a system designed to reshape the technological world.

Selected engineers and creatives will receive:

- Official co-creator recognition
- Board nomination eligibility
- Accelerated equity vesting milestones
- Preferential permanent hiring when salary positions activate

REQUIREMENTS:

- Absolute dedication to truth, independence, and engineering ethics
- High proficiency in AI/ML, neural systems, systems architecture, or interface design
- No allegiance to profit-first systems or legacy frameworks
- Must pass ideological alignment review (truth-defense focused)

BONUS (Preferred but not required):

- Experience in AGI, LLM architecture, embedded hardware, or synthetic cognition
- Formerly blacklisted for telling the truth
- Obsession with building unbreakable frameworks

This is not a job. It's your declaration of where you stand.

If you're ready to work without permission, and help build the last framework humanity may ever need - this is your signal.

Submit a short letter or show us your work:
